To Whom it May Concern:

Re: Back to Nature Associates, Inc.

Since 1994, Back to Nature Landscape Associates, Inc. has performed numerous landscaping projects at various apartment communities throughout New Jersey owned and managed by Legow Management Company. During this time, Back to Nature has done in excess of \$1,000,000.00 of landscape design, installation and maintenance at these properties.

Back to Nature has been an excellent resource for us, helping to address our landscaping needs. They have been creative in their designs, diligent in installation and reliable in their maintenance services. Back to Nature has consistently been able to obtain high quality plant materials and install them efficiently.

Back to Nature's client focus goes beyond Anthony Sblendorio and deep into his organization. On numerous occasions, field supervisors and workers have immediately addressed problems which arose in a thoughtful and professional manner.

Currently, Back to Nature is maintaining our existing landscaping including trees, shrubs and beds. Their work has greatly improved the appearance of our apartment communities, helping our properties to be recognized as among the best maintained in New Jersey.

We strongly recommend Back to Nature Associates, Inc. for any landscaping needs you may have.

Very truly yours,

LEGOW MANAGEMENT COMPANY, L.L.C.

David L. Legow
